

# INTERNATIONAL ENVIRONMENTAL LAW

## in Maastricht

**cisaustralia**  
Study | Intern | Volunteer Abroad

### Why Maastricht?

- **Most International University in the Netherlands:** 50% of the attending students are international and represent over 100 different nationalities.
- **Innovative Problem-Based Learning (PBL) Model:** challenges students to learn their subject matter while developing self-reliance, assertiveness, and problem-solving skills.

### Why International Environmental Law?

- **Gain Credit:** Dynamic and engaging course (taught in English) designed for international students.
- **International and National Approaches:** Examining international law, national strategies, and the rise of Global Environmental Law to address transboundary environmental issues.
- **Special Focus:** The European Union's role in addressing environmental problems, including a visit to the Hague!
- **Case Study Centered:** The global issue of climate change as a primary case study. From local air and noise pollution to biodiversity loss, long-distance air pollution and more.
