WELCOME!

This summer, CISaustralia is offering **13 short-term programs** providing opportunities for students to **Study or Volunteer overseas and gain academic credit**. We have 6 summer study programs at our international partner institutions, from Environmental Law and Positive Psychology in the Netherlands, to Japanese Language and Culture in Tokyo, Japan, and humanities courses in New York State and beyond. With hundreds of courses across various disciplines, a study abroad experience is now accessible for most Australian University students.

Also available this summer is a **diverse range of volunteer (Work Integrated Learning - WIL) programs across 4 continents**. Offering students the opportunity for hands-on experience with no prerequisites, our volunteer programs provide students international experience in **environmental conservation, community development or healthcare**.

1

Why learn abroad?

Participating in a learning abroad program provides an endless list of opportunities, including **improved academic performance and employability**, soft skills such as adaptability and independence, and work ready skills such as cultural awareness and a deep understanding of global issues.

2

Who can learn with CISAustralia?

All students enrolled in an Australian University are eligible to apply for a program. Students can participate in the program for academic credit or purely for the international experience. **[Apply Now](#)**

3

Receiving credit

Receiving credit for a learning abroad experience is made possible by the **detailed course syllabi** provided for each course or the **detailed program description** for each volunteer program. Credit is generally awarded by the Australian University via a core, elective, or specific learning abroad shell course.

4

Funding a learning abroad program

Funding an overseas experience is made possible through the Australian Government's **OS-HELP scheme** that allows eligible students to access up to \$10,767 to participate in their overseas experience for academic credit. For comprehensive information, please refer to this short OS-HELP [video](#).

5

Full-Service Provider

As a full-service provider, we meticulously prepare each student for their overseas experiences. From enrollment to pre-departure preparation, we ensure each student is ready for their journey.
