Format: both exams are divided in two sections:

Part I: Short-answer questions requiring students to answer with concise explanations of main ideas, key words and concepts, based on readings from the course-pack and lesson material.

Part II: Essay questions requiring a depth and width of analysis and not simply the description of factual occurrences.

Each correct and complete answer will be marked with the relevant points, summing up to 100 points in case of all perfect answers.

A complete answer consists in accurate and complete factual explanations, analysis or definitions, clear expression of personal opinions with appropriate language style, correct spelling and punctuation.

- Research Paper counts for a 20% of the final course grade.

The Research Paper is a Group Research (to be realised in small groups of at least 3 students that need to be formed and communicated to the instructor by Lesson 4.

Research is meant to discover information and explore ideas. The group work aims at stimulating creativity, the capacity to work well in teams and employing critical thinking skills.

Furthermore, it aims at assessing multiple viewpoints on potentially challenging juridical, historical or ethical issues. Working with teammates gives you the opportunity to consider and weigh alternative

perspectives and opinions that you might not have considered working on your own. The topic selected has to be communicated after the midterm break and see the addendum for the deadline of its submission and detailed explanations. Research papers will be discussed in class.
